

April 4, 1936

Mr. W. A. Wilson, Secretary and Treasurer,
Boulder Irrigation & Water Development Co.,
49 Clayborne Ave.,
City.

Dear Sir:

In reply to your letter of March 30 please be advised that the appointment of Franklin Hansen as Water Commissioner for the season of 1936 in dividing water on Boulder creek, East, West and Center Deer creek and Frisky creek, - all in Garfield county, cannot be made until I will have received from you additional information.

You state that a majority of the water users join you in making such a request. It would appear, if such be the case, that this action was taken at a meeting. If so, I must have as a matter of record, a copy of the minutes signed by the secretary and chairman, in which must be embodied a statement to the effect that the water users affected will pay all of the expenses, without recourse to the State Engineer's office, connected with such division and, in addition thereto, you must send to this office \$10 for use in purchasing a surety bond and paying for insurance and liability, both of which are required by law before Mr. Hansen's appointment can be made.

After you have complied with the above I shall be very glad to meet your wishes in the matter.

Yours very truly,

T. H. Humpherys
STATE ENGINEER
